The EMFV program, similar to the highly-recognized Extension Master GardenerSM Volunteer (EMGV) program, is designed to provide volunteers the opportunity to support Family and Consumer Sciences (FCS) agents with food-related programming. Volunteers with the EMFV program will receive a core curriculum of 30 hours of training and will then shadow the FCS agent for 30 hours during their first year.

Volunteers will be able to provide support to the FCS agent's food-related programming, including assisting with cooking, nutrition education, and food safety classes, and conducting food demonstrations in the community. The cost of the program is \$50.

Perquimans County's Sue Mitchell, was one the first Extension Master Food Volunteers to become trained in 2016, during the NC State Campus Pilot Program started in Currituck County under the direction of Olivia Jones, Currituck/Camden FCS Agent. Mitchell will be assisting with the course and is excited to see others join this elite group of individuals that represent North Carolina State University's Extension Outreach.

To apply for the 2018 class, [register online](#) at the Perquimans Cooperative Extension Website at perquimans.ces.ncsu.edu or contact Jewel_Winslow@ncsu.edu, 252-426-5428.
